Election/Restrictions

Claim Objections

Claims 15-19 are objected to because of the following informalities: In claim 15 lines 5-6, the phrase "configured to selectively communicate each of coupled between the sources with and each of the distribution units" is not understood. In claim 17 line 3, it appears that "firsts" should be "first". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,10,13,14,22 are rejected under 35 U.S.C. 102(b) as being anticipated by Bender et al. (5,915,313).

Bender et al. discloses a system for distributing first and second materials including first and second sources (304, 306), a plurality of distribution units 58, and a nurse distribution mechanism (fig. 11), configured to selectively communicate each of the sources with each of the distribution units. Concerning claim 10, figure 13 shows first and second sources 402, 404, first and second primary lines 406 & 408, nurse distribution unit 400, with figure 15 showing the use of a plurality of secondary lines coupled between the nurse distribution unit and the distribution units 58.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bender et al. (5,915,313).

Bender et al. discloses a system for distributing first and second materials as described previously, but lacks a third source and third primary line. The addition of a third source amounts to a duplication of part, which would have been obvious to one of ordinary skill in the art at the time the invention was made since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art. *St. Regis Paper Co. v. Bemis Co.*, 193 USPQ 8.

Allowable Subject Matter

Claims 3-9,11,17-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-16 are allowed.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
